**Water Filter \$30**

**When safe drinking water just isn't available** – especially in times following natural disasters or emergencies – a simple, ceramic water filter is a lifesaver. **Goat \$50**

Goats are one of our favorites when it comes to sustainable development. Why? Because they can go where others can't – surviving in some of the world's harshest environments – rocky terrain, drought-prone areas, small plots of land – you name it! Fresh milk from a goat provides daily nutrition for children and their families.
